

Updating AML Lists on your USB Memory Stick

1. Plug in your USB memory stick.
2. Click [here](#) to download the WinZip self-extracting update.
3. Click "Run"
4. When prompted enter "X:\amlsearchfiles" where X is your USB memory stick drive letter or browse to the "amlsearchfiles" folder on your USB memory stick.

Using either method, the download window should now look like the one below except for the drive letter "K".

5. Click "Unzip".
